

File Edit View Run Kernel Settings Help

The list frequency of elements is : {3: 2, 5: 1, 4: 2, 6: 2, 2: 1, 1:

```
[30]: # Initialize the input lists
list1 = [1, 2, 3, 4, 5]
list2 = [4, 5, 3, 7, 8]

# Find the common elements using set intersection
common_elements = list(set(list1) & set(list2))

# Print the common elements
print("Common elements:", common_elements)
```

Common elements: [3, 4, 5]

```
[31]: # Initialize the input list
names_list = ['Sohan', 'Mohan', 'Rohan']

# Find the first letter of each word in the list
first_letters = [name[0] for name in names_list]

# Print the result
print("Op:")
print(first_letters)
```
